"TDDN: Thrives In Park Evangelism"

There are those brothers and sisters who believe in what Jesus did concerning Soul-Winning but not many would dare do it today. For instance our public Parks which are loaded with people who go there to become a part of the public. Many people, if approached right, are looking for someone to tell them about Jesus who can save the sin

sick soul. Our thirst for evangelism must match our need to love people right where they are. That is to say, instead of judging let God love them through us. What looks foreign and suspicious today will cut through the outer surfaces of hate, depression and anxiety. Why don't you help us win the lost through Christ Jesus. He is the way the truth and the life (John 14:6).

"To Win Souls For The Lord Prepare Now"

We must not forget that God has us, who are saved, on an important mission to save a soul from hell (James 5:20). When His disciples asked Him what was expected of them He simply said, "we must work the works of Him that sent us while it is yet day for night cometh when no man can work" (John 9:4). Perhaps we expect Christ to never use us to become like sheep who gather other sheep? He said my sheep hear my voice and follow me. The strangers voice they will not follow for the reason they are not His people (John 10:27-28). Spiritual pit stops will make a difference

"Neighborhoods Can't Be Ignored Today"

An alternative indeed is going to the people in their homes. For some brothers and sisters homes have become a place of torture and remains that way. God will, without a doubt, send many of us with a message that releases some soul from the bondages of sin. The fear that separates us from the rest of the world is a lie from the pit of Hell Satan uses to hurt our witness. Remember, he is the prince and he power of the air (Eph 2:2). Why don't we believe (1 John 5:18b), it gives us intestinal fortitude whenever needed.

"Knowing The Truth Helps When Soul-Blitzing"

Taking a bus load of expert evangelist to a crowded place and distribute some tracks to people inviting them out for Bible Study will change many lives. If a ministry hasn't conceived of it yet the Lord will be patient until growth has taken place enough to win souls (Prov 11:30). Never coerce people to soul win. Only let the Lord through compassion create the necessary compassion needed to GO into all of the world (Matt 28:19). God will not push us just love us enough to want to compel others to love.
